1989 TOYOTA PAINT CODES AND REFINISH PAINT FORMULA CODES

A listing of all 1989 Toyota Paint Codes and Color Names, including refinish paint codes for five major automotive paint manufactures – BASF (R-M), Dupont, PPG (Ditzler), Sherwin-Williams (Acme, Rogers, Martin-Senour), and Sikkens, is attached for your reference.

Please note:

- Color numbers 042 and 049 are Tricoats (three-layer paint): base color coat, pearl (mica) coat and clearcoat.
- All colors listed as pearl or metallic have a clearcoat finish.
- Sikkens paint formula codes use the abbreviation "Toy" plus the Toyota paint code (for example, the paint formula code for 8G1 is Toy8GI)
- Martin-Senour paint formula codes are the same as Sherwin Williams codes for all new 1989 colors. Contact your Martin-Senour/NAPA dealer for all carryover 1989 paint formula codes.

Please contact your local refinish paint representative if you encounter color match problems or require the actual paint mixing formula.
