CHANGE IN ECM SPECIFICATIONS

Page 1 of 1

To improve driveability during slight acceleration on downhill grade for vehicles equipped with manual transmission, the E/G ECM programming has been changed.

PRODUCTION EFFECTIVE:

From Production Date: August, 1991

From VIN: JT#VN01*#N2012283
JT#VN01*#N0004961
JT#VN02*#N2002310
JT#VN13*#N5072300
JT#VN39*#N7002771
JT#VN39*#N9011852
JT#VN39*#N0072969
JT#VN39*#N8034476

Note: Production effective breakpoints are for reference only. The Part Number on the ECM in the vehicle must be verified in all instances.

PART NUMBER INFORMATION

PREVIOUS P/N	NEW P/N	PART DESCRIPTION
89661-35191	89661-35192 (-84)*	'89 MY ECM
89661-35351	89661-35352 (-84)*	'90 MY ECM
89661-35510	89661-35511 (-84)*	'91 MY ECM

INTERCHANGEABILITY:

New parts may be used on previous vehicles. Previous parts should not be used on new vehicles. Remanufactured ECMs (indicated by 12 digit P/N ending with -84) also include this improvement.
