Title:

## FRONT & REAR LICENSE PLATE INSTALLATION

Models:

'00 ECHO

PRODUCT GENERAL INFORMATION  
PG023-99

**Introduction** Install license plates or license plate frames as required on the 2000 model year ECHOs front and rear bumpers during Pre-Delivery Service (PDS) according to the following procedures.

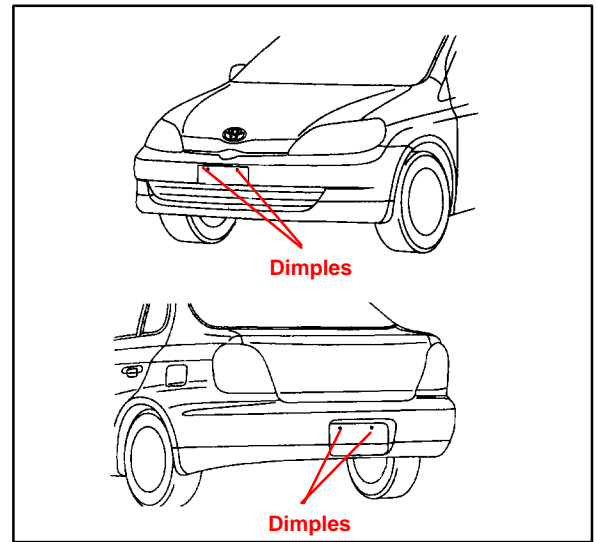

**Applicable Vehicles**

- 2000 Model Year ECHO.

- Installation Procedure**
1. Align the license plate installation holes with the dimples on the front or rear bumper.
  2. Using two self-tapping screws, install the front license plate directly into the dimples on the front bumper.

**NOTE:**  
Do NOT drill holes in the dimples.

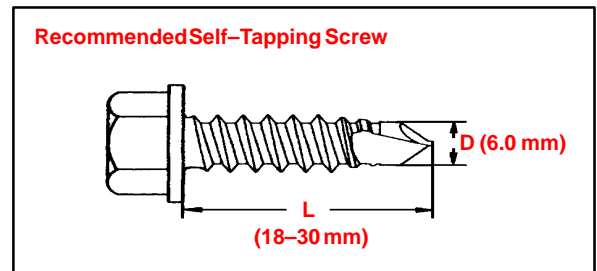

3. Install the rear license plate on the rear bumper in the same manner as the front license plate.

Self-tapping screws with the following dimensions should be used:

**Nominal Length (L): 18–30 mm (0.71–1.18 in.)**

**Diameter (D): 6 mm (0.24 in.)**
