FRONT BRAKE ANTI-SQUEAL SHIMS ON 4RUNNER

Page 1 of 1

The front disc brake pad kit on 4Runners has recently changed. The No. 1 & No. 2 Anti-Squeal shims will no longer be used on the inside pad of the front disc brakes. The service part kit reflects this change and will only have two No. 1 & No. 2 Anti-Squeal shims in the kit, rather than usual four shims.

NOTE: Install shims on outside pads only.
