

GEN 2/3 Map Information

GEN 2/3 Dealer Ordering Guidelines

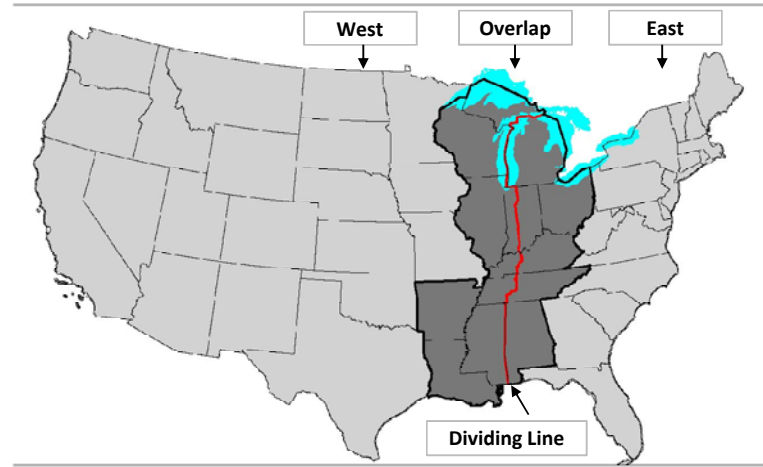

Ordering recommendation:

- Please order only **one** GEN 2/3 DVD map per customer location (West or East).
- Refer to **DVD East or West Recommendation List** (attached) to determine which DVD (West or East) to order for your dealer location.
- It is up to the Dealer's discretion to ask end users if they prefer the GEN 2/3 West or East DVD.

V.11.1 GEN 2/3 Map DVD:

- Both West and East GEN 2/3 Map DVDs contain **all** road and POI coverage for the U.S. (there is no missing map data on West and East DVDs).
- One change has been made:**
 - The **POI - Search by NAME** result list is limited (using **Destination Screen**).
- In other words, when using the **Destination Screen**, and a **POI - Search by Name** query is done on a West DVD, the result list will not display POIs **by Name** that are located to the East of the Dividing Line (see US Map on right), and vice-versa, for the East DVD.
- However all other **Destination Screen** searching functions are still enabled: **Search by Address, Search by POI, Marked Point, Previous Destination, Emergency, Intersection**

Dividing line between West and East States
