NEW LUBRICANT FOR S5# SERIES M/TM (REVISED)

To improve the shift characteristics and feel of vehicles equipped with the S5# series manual transmission, the gear lubricant has been changed from Dexron® II to 75w-90 GL5 Gear Lube.

When adding fluid or servicing and refilling the transmission do not mix or change the original type of fluid installed in the transmission from the factory.

The fluid color can be used in the identification of the fluid type.

Dexron® II
Color (red)

75w-90 GL5 Gear Lube
Color (brown)
